Happy "Color Year"

We see exciting colors for the new year and beyond.

This spring we will introduce one of our most colorful collections for **Sunbrella** and for **Miles Talbott Furniture**. We see colors that all start with a **beige palate** and then accent with **deep and soft pinks, blues and greens**. We believe the

market is ready for **color** but still holding on to the "safe" shades of **beige**. We are calling this "**Beyond Beige**." The rooms of American homes are ready for color and we think it is time.

Green is a Color

With all the talk of "green" as it pertains to the environment, I believe we loose track of the fact that there is a **color green** and it is becoming more and more a part of decorating schemes all over the world. We have mixed greens, beige and pink to complement each other in our fabrics. You'll see color in our collections for W.King Ambler and Gat Creek as we introduce **new** colors as well.

"THINK PINK"

For those of you who remember the delightful movie "**Funny Face**" you'll know what I mean when I say, "*Think Pink.*" Entertainer Kay Thompson, playing editor Diana Vreeland announces to the world that "*Pink is the color for the season.*"

We too believe that **Pink** will play an important role in **Interiors** this spring 2011 and going forward. **Pink** in many shades, from "dusty" to "hot" and these shades will be paired with soft beige and deep chocolate. All part of our textile collections for **Sunbrella** and **Miles Talbott Furniture**.
